(54) Title: REPAIR OF DAMAGED TISSUE

(57) Abstract: The invention relates to a method for the repair of damaged tissue present at or on the surface (5, 27) of bone in an animal, the method comprising forming a narrow groove (7, 25) around at least part of said damaged tissue, which groove extends (7, 25) into the bone (3, 29) below the damaged tissue, replacing the tissue around which the groove (7, 25) extends by at least one layer of biocompatible replacement material (9), and anchoring the material (9) to the bone (3, 29) by the use of retaining means (11) extending from the material (9) into the groove (7, 25); instruments for use in the repair of damaged tissue and kits comprising said instruments.

International application No. PCT/GB 00/04624

INTERNATIONAL SEARCH REPORT

Box I	Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)						
This into	ernational Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:						
(nis ii ii	strational Search Report has not occur obtained in separation						
1. X	Claims Nos.: 1–17, 42 because they relate to subject matter not required to be searched by this Authority, namely:						
÷	Rule 39.1(iv) PCT - Method for treatment of the human or animal body by surgery						
	sur ger y						
2.	Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:						
3.	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).						
Box II	Observations where unity of invention is lacking (Continuation of item 2 of first sheet)						
This is	ternational Searching Authority found multiple inventions in this international application, as follows:						
1405 100	ternational Seatoning Authority found interspie involves.						
	-14442						
	see additional sheet						
1. Y	As all required additional search fees were timely paid by the applicant, this International Search Report covers all						
	searchable claims.						
	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment						
2	of any additional fee.						
	- Wis International Search Report						
3.	As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:						
ĺ							
4.	No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos						
Rema	The additional search fees were accompanied by the applicant's protest.						
	No protest accompanied the payment of additional search fees.						
1	 -						

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. Claims: 18-33 (

A set of instruments for repairing damaged tissue at or on the bone surface comprising: - means for forming a narrow groove around said damaged tissue; - means for removing said damaged tissue from the space inside said groove; - means for anchoring replacement material retaining means inside said space.

2. Claims: 34-41

A replacement element, and a replacement kit, for repairing damaged tissue at or on the bone surface comprising: - a pad of bio-compatible material shaped and sized to occupy a site from which said damaged tissue has been removed.
